The New Stylish

L097-3

With9.7inches Screen

L097-3 Tablet

3G Enabled

RRP
£206.99

Description :

The stylish and sleek designed L097-3 Tablet with a 9.7 inches capacitive screen is the newest buzz in the market.

The technological advancement in the field of mobile development has made it possible to bring the whole world at your fingertips whenever you want! The latest introduction in the Tablet segment is the new and stylish L097-3. This model has all the features that will unleash a new world in front of you. The L097-3 comes with power packed features that are much required for the newest generation as well as the business class. The Tablet comes with a 9.7 inches capacitive touch screen with five points touch. L097-3 comes with the Google Android operating system and thus you will be able to download thousands of applications on your tablet.

The L097-3 Tablet has in built Wi-Fi system and Bluetooth. This will suffice your requirement for working without wires. It also has an integrated audio system which is quite powerful. In this age of mobile devices tablets serve the purpose of both entertainment and business. Since the tablet has touch screen display you can add an external keyboard for your comfort. The two cameras are positioned at the front and back of the Tablet. The front one is a 300K pixel webcam and the rear camera is of 2megapixels. So you can video chat with the front camera while you can take pictures with the rear one.

The L097-3 comes with a good battery life. You can browse the web for approximately five hours while you can play videos or music for around six hours. The Tablet gives you an approximate seven hours of battery life which is quite good for a tablet. The L097-3 comes in white and gives a classy look to its stylish and sleek getup. The technical specifications of this Tablet includes 1GB DDR3 RAM, OpenGL GPU, Boxchip A10 1.2GHZ CPU, TF Card Reader Support, Browse & Share Graphics Card and others.

The L097-3 comes with a guarantee of one year. You can also order for the charger styles as per your requirement, that are available in UK plug, USA plug and European plug. The Tablet supports almost all types of Audio files such as MP3,WMA, MP2, OGG, AAC, M4A, MA4, FLAC, 3GP and WAV. The video formats that the Tablet supports are AVI, H.264, DIVX, XVID, rm, rmvb, MKV, WMV, MOV, MP4 （H.264, MPEG, DIVX, XVID), MPEG, MPG, FLV and HD 1080P max. The L097-3 is surely a rocker in the genres of Tablets. With such interesting features and configuration the Tablet has already created a positive buzz in the market.
